Md. Sumon Islam
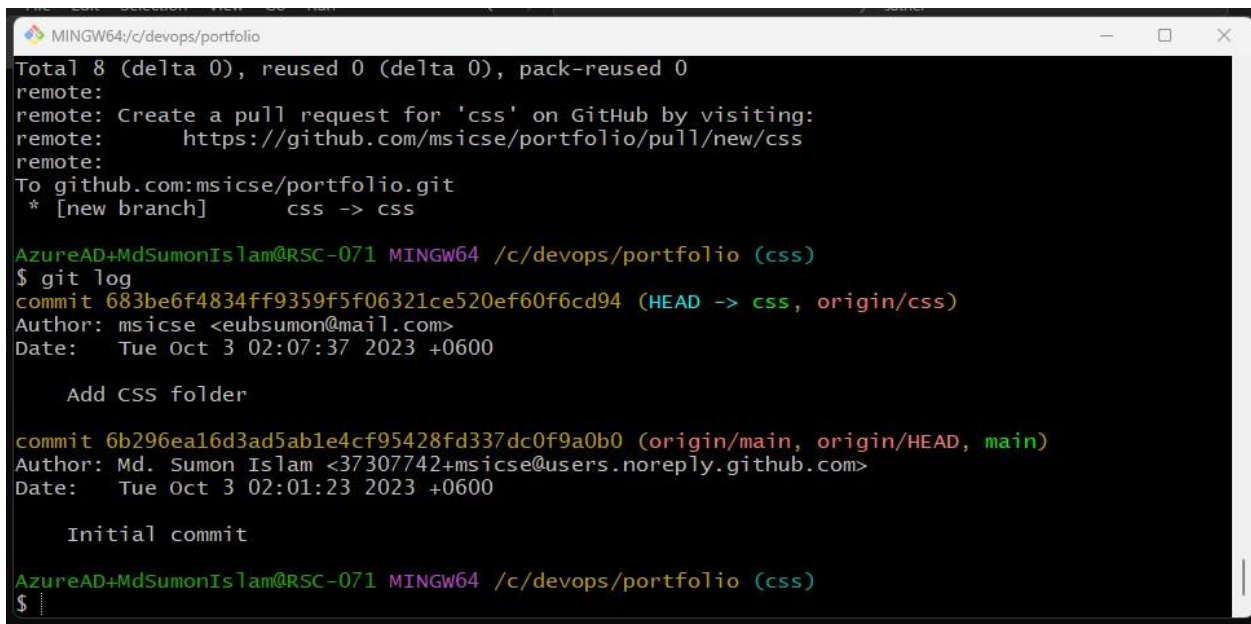

Assignment-02

Repo link: https://github.com/msicse/portfolio

Process of completing the assignment:

➔ I have created a repository named portfolio
➔ Clone the repository to local machine
➔ Create a new branch named css, checkout the created branch, add all css files and push the local branch to remote repository
➔ I have repeated the previous step for fonts, img, js, scss, vendors and html files
➔ Merge all branches with the Main
➔ Push the main repository of local branch to remote repository
➔ Delete all branches from local and remote
➔ Deploy the main branch of the repository to github page

I have attached all screenshots:

```
MINGW64:/c/devops/portfolio                                              —    □    ×
